

ENTE GA AG

Company Presentation

EINFACH KLIMAFREUNDLICH FÜR ALLE.

How We See Ourselves

“We are the pathfinder for a new sustainability in the German energy sector: ecologically responsible, economically successful and far-sighted in developing an innovative and forward-looking energy supply.”

2012

We were awarded the Deutscher Nachhaltigkeitspreis (German Sustainability Prize) for our future strategy.

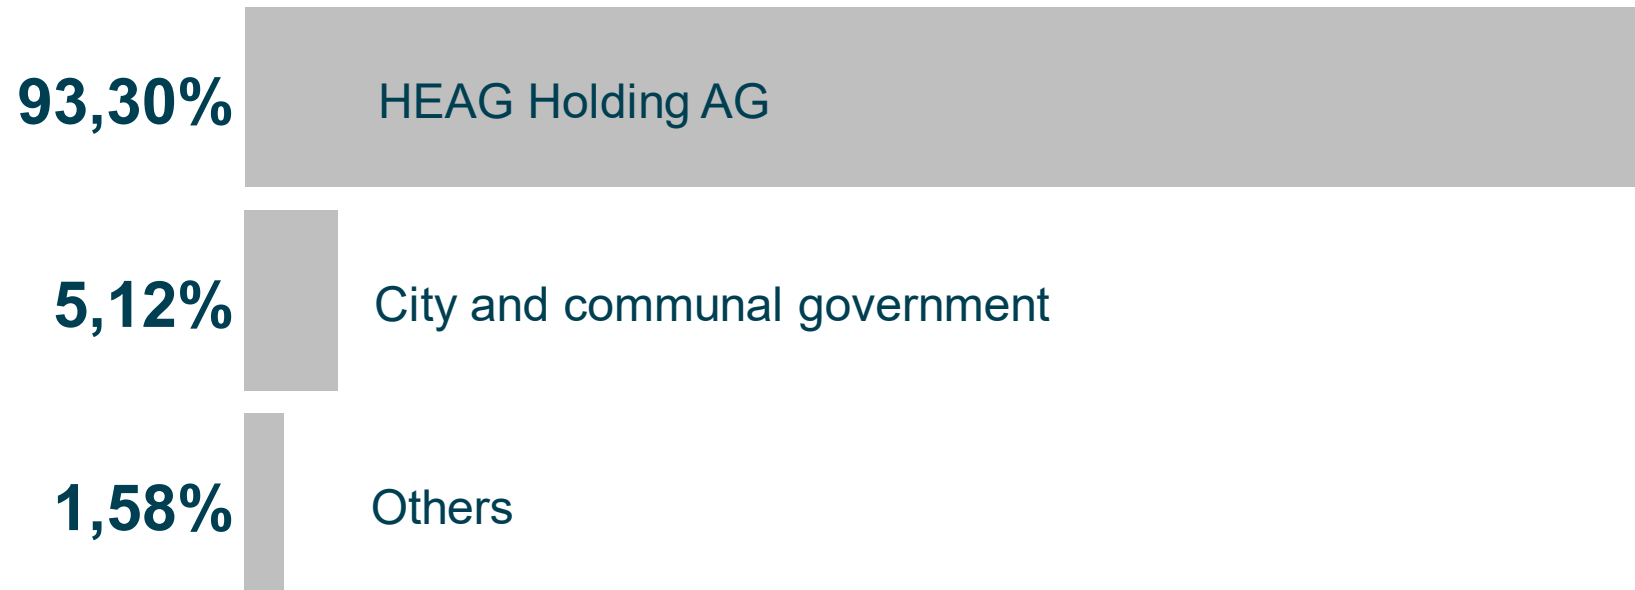

Since 2015

We have been certified by TÜV SÜD as a **Pathfinder of the Energy Transition**. Only four of 1,000 energy suppliers have received this award so far.

A Brief Portrait

With our subsidiaries and shareholdings we cover **the entire value-added chain of a sustainable energy supply and modern fundamental public services.**

In south Hessen we operate thousands of kilometres of **energy and drinking water networks, illuminate streets**, push **e-mobility** forward, provide **fast internet** and promote **digitalisation**. We **generate power** in renewable energy plants and in modern gas power stations. We also operate a **waste-to-energy power plant** and two **sewage plants** in Darmstadt.

We are **one of the biggest regional utilities** in Germany and are among the **leading suppliers of green electricity and green gas**. Across Germany we supply low-cost green electricity and green gas, drinking water, telecommunications or heat to about **800.000 customers**.

Today we can produce about 0.8 billion kWh per year ourselves. For this purpose we have invested considerable amounts **in renewable forms of energy** and gas power stations with low environmental impact. Our **renewable energy generation capacity is 298 megawatts** at present.

The ENTEGA group currently employs approx. **2,200 persons** – among them **108 trainees**.

Our Fields of Activity

Generation

Energy production with low environmental impact from renewable energy sources and from efficient gas power and heating plants. Heat supply and contracting.

Trading

Energy trading, portfolio and energy accounting management, direct marketing of power and biogas under the Renewable Energy Act.

Sales

Sales of electricity, natural gas, heat, telecommunication services and energy efficiency solutions.

ENTEAGA AG

Networks

Construction and operation of energy networks, land development, street lighting and traffic installations.

Operation of Public Services

Supply of drinking water, waste water treatment, burning waste, biomass and materials recycling.

Shared Services

Measurement, invoicing and IT services for the energy sector.

Corporate social responsibility: ENTEGA Foundation, ENTEGA NATURpur Institute

Key Figures for 2023

Group Turnover: 4.020,5 million €

Number of employees: 2.235

Sales of electricity: 11,9 billion kWh*

Sales of natural gas: 5,8 billion kWh*

Sales of drinking water: 13,7 million m³

Amount of garbage disposal: 210.657 t

*Supplies to customers and traded quantities

Key Figures for 2023

Regenerative capacity: **298 MW***

Sales of **green gas: 2,3 billion kWh**

Sales of **green electricity: 3,4 billion kWh**

*Plants owned or operated.

Renewable Energy Generation

Renewable energy sources

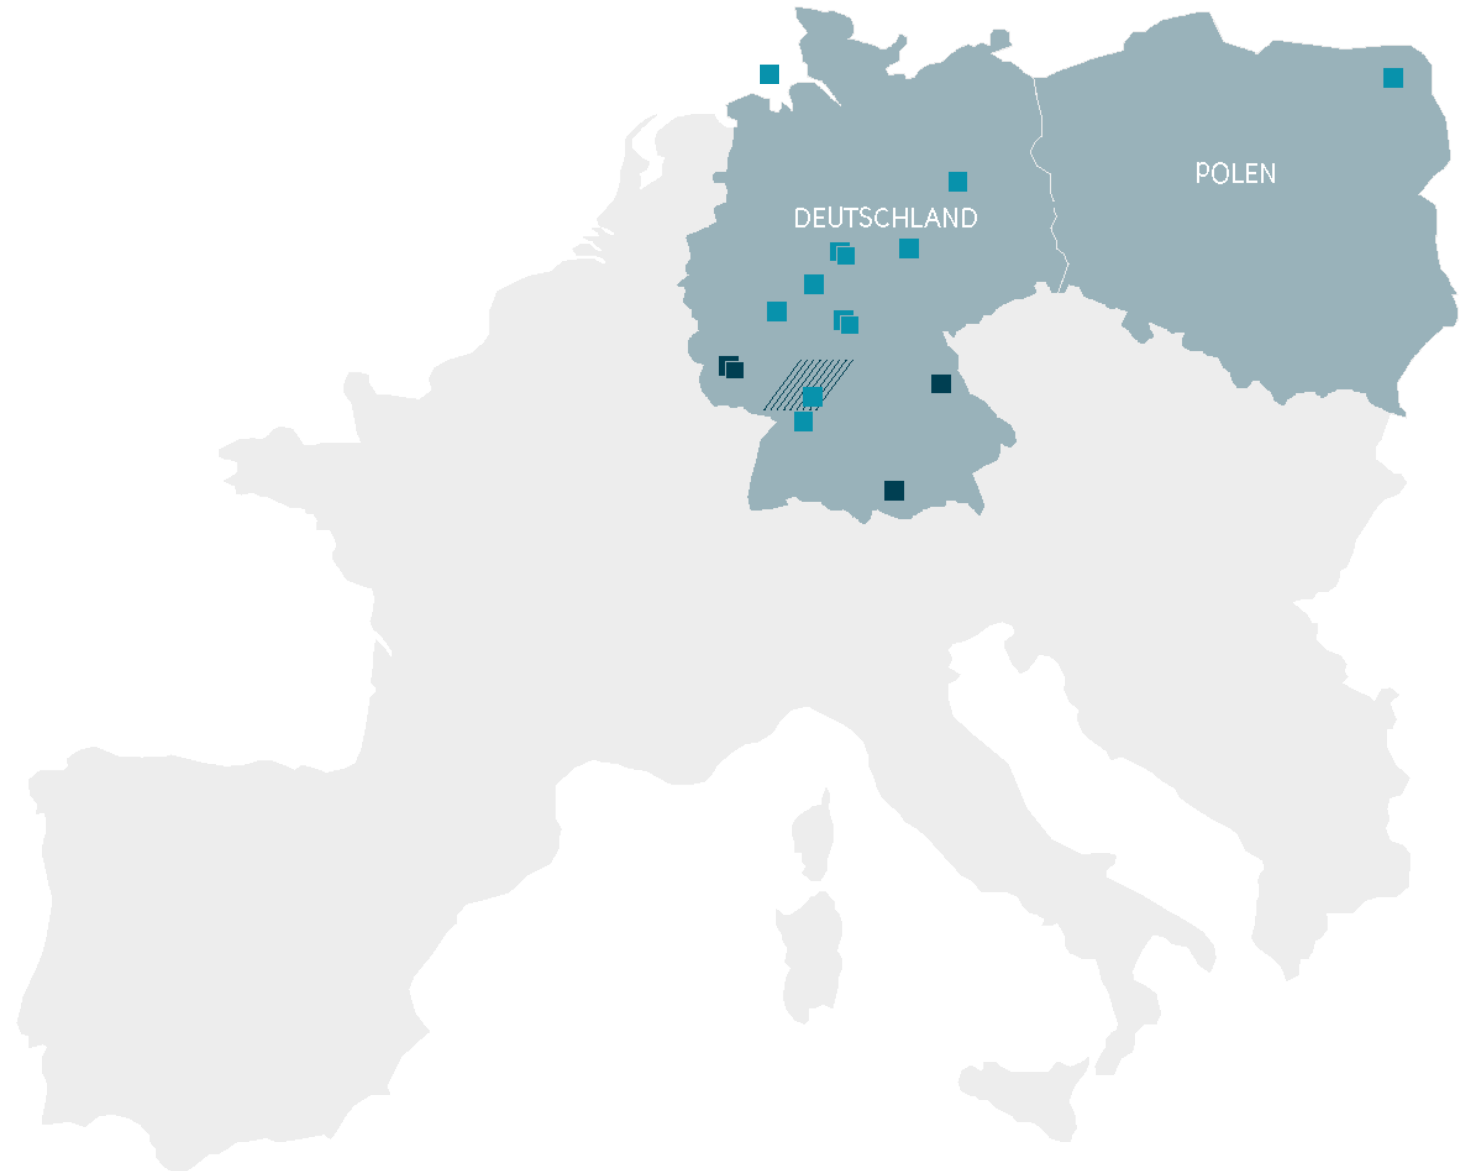

12 wind parks

4 solar parks

125 PV plants

Currently 298 MW installed*, with forecast annual production of 0.8 billion kWh

*under ENTEGA management

Conventional Generating Plants

We operate two modern gas power stations, one industrial power plant, and several heat and heat & power plants in south Hesse.

Our Network Region

Electricity network*	9.530 km
Natural gas network*	2.510 km
Drinking water network	919 km
Telecommunications network	6.092 km
Heat network	83 km

*not including network connections

Excellent Service and Product Quality

ok-power

ENTEKA green power is certified according to the strict rules of the ok-power seal of quality.

TÜV SÜD

ENTEKA is a certified pathfinder in the energy transition.

CSR rating: GOLD

EcoVadis assesses suppliers with respect to sustainability. ENTEKA Energie was awarded the CSR GOLD rating.

TÜV Rheinland

ENTEKA's quality and environmental management is certified by TÜV Rheinland.

FAIREST CONDITIONS

In a study commissioned by FOCUS MONEY, the Cologne-based consulting and analysis company ServiceValue has identified the fairest service providers out of 50 categories. According to this study, ENTEKA offers the fairest terms and conditions in the eco energy supplier category.

FOCUS TOP Climate Commitment

In the energy sector, ENTEKA and a total of 12 companies (out of over 100 energy suppliers analysed) were honoured.

Our Social Commitment

Through our **ENTEKA Stiftung** (i.e. foundation) we support citizens' involvement in **socially-oriented projects, art and culture, sports and education.**

Through the **ENTEKA NATURpur Institut** (i.e. institute) we promote application-oriented research for a **sustainable energy supply system.** Both non-profits are engaged in climate and environmental protection.

In cooperation with the Handwerkskammer Frankfurt-Rhein-Main (chamber of crafts) and other partners we have established the **Effizienz:Klasse, an independent platform for energy efficiency consulting.**

In collaboration with energy cooperatives **we create means of financial participation in renewable energy sources for citizens.**

Our Social Commitment

We have implemented comprehensive **sustainability management** and **ambitious sustainability aims**. Each year we report on our progress in accordance with the Global Reporting Initiative Standards using the option “core”.

As part of our **sponsoring strategy** we link our sponsoring to **ecological and social objectives**.

In addition to some **2,235 directly employed persons** in the group, in Germany **19,000 further jobs are indirectly dependent** on the activities of the ENTEGA group – approx. **5,000 in the Rhine-Main-Neckar** region.

As part of responsible and transparent corporate management **we conform to the principles of the German Corporate Governance Codex**.
